

Correction

Lampland AL, Plumm B, Worwa C, *et al*. Bi-level CPAP does not improve gas exchange when compared with conventional CPAP for the treatment of neonates recovering from respiratory distress syndrome. This paper was incorrectly published on the Online First page of *Archives of Disease in Childhood*, it should have been published on the Online First page for *ADC Fetal & Neonatal Edition*. We apologise to the author for this error, the paper has now been moved to the correct edition.
